

Dragons 4 Dragons®

Dragons investing in the future and supporting other dragons.

Please consider donating to or sponsoring a \$250.00 scholarship to the Dragons 4 Dragons Scholarship Program.

This program was created for students to support each other by raising funds for college scholarships through the sale of merchandise, donations, and sponsorships. It is the hope that enough money will be raised to give out several awards to those students who demonstrate the true meaning of being a Southlake Carroll Dragon with one example of helping another student.

This scholarship is not based on GPA, sports, or extracurricular activities. But rather only on an act of kindness.

To qualify for an award, Southlake Carroll high school seniors must submit an essay to the counselor's office explaining their true meaning of being a Southlake Carroll Dragon with one example of helping another student. The essays are anonymous and are judged only by the CSHS counselors. The number of awards given out is equivocal to the number of awards raised. These names are given to the CISD financial department who will then send the scholarship money directly to the university the student will be attending. No checks will be given to students.

The response to this new scholarship has been amazing with a larger than expected number of essays submitted each year. The only regret is that an award cannot be given to each student who has turned in a submission.

Please visit our Facebook page, Dragons 4 Dragons, and our website for up-to-date information. Please also make all checks payable to, **CISD – Dragons 4 Dragons** which will be deposited into a designated account with the district ensuring that 100% of your donation will go towards an award.

Thank you for your consideration,

Brett Belleville, Michael Ubis, Bryant Hargreaves, Rachel Moon, and Cade Parks

Please mail checks made out to: CISD-Dragons 4 Dragons
